

January gngHub Referral Code Look Up

There are two ways to look up a realtor's Referral Code from this list.

1. Scroll through the list

- a. The list is sorted alphabetically by agent last name.
- b. Locate the agent's last name (provided by the customer) and confirm the agent's first name and company.
- c. Identify the Referral Code associated with the real estate agent and add it to the customer's enrollment.

2. Search by Last Name using the "FIND" command.

- a. Right click your mouse to open a menu box, and select "Find" from the drop down.
- b. Enter the last name of the referring real estate agent and click "Next" to navigate directly to the name.
- c. Confirm the agent's first name and company with the customer.
- d. Select the Referral Code from the list for the customer's real estate agent and add it to the customer enrollment.

member firstname	member lastname	company	referral number
