September 2026 gngHub Referral Code Look Up

There are two ways to look up a realtor's Referral Code from this list.

1. Scroll through the list

a. The list is sorted alphabetically by agent last name.

b. Locate the agent's last name (provided by the customer) and confirm the agent's first name and company.

c. Identify the Referral Code associated with the real estate agent and add it to the customer's enrollment.

2. Search by Last Name using the "FIND" command.

a. Right click your mouse to open a menu box, and select "Find" from the drop down.

b. Enter the last name of the referring real estate agent and click "Next" to navigate directly to the name.

c. Confirm the agent's first name and company with the customer.

d. Select the Referral Code from the list for the customer's real estate agent and add it to the customer enrollment.
